### **DETAILED ACTION**

1. This office action is in response to application 10/676236, and amendment filed on 8/29/2005. Claims 1-34 remain pending in the application.

#### ***Terminal Disclaimer***

2. The terminal disclaimer filed on 8/29/05//2003 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of the patent granted on pending application number [10/676,859] has been reviewed and is accepted. The terminal disclaimer has been recorded.

### **EXAMINER'S STATEMENT AS TO THE REASONS FOR ALLOWANCE**

3. Claims 1-34 are allowed over the prior art of record.

4. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest a system and method for generating a test case operable to test a circuit design using a plurality of threads comprising a test code and state initialization engine operating responsive to a random number sequence and a probability profile for generating test code; a distribution setting engine for generating default distribution settings that specify a magnitude of at least one simulation parameter assigned to each of said plurality of threads based on a default probability distribution profile; and a knob-setting interface fro differentiating said default distribution settings, wherein said differentiated distribution settings are associated with said test code in order to generate said test case for exercising a circuit design model of said circuit design.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
